JULIAN D. CROCKER, SUPERINTENDENT

Education Technology

What is eLearning?

eLearning

is a new tab in the ETC Portal that serves as a central location for teachers and students to access online learning opportunities. Students, through teacher guidance, can extend and supplement classroom activities, accelerate learning, access Advanced Placement Classes, complete supplemental core and/or elective classes, and make up lost credits. Courses are made available to San Luis Obispo County teachers and students as a benefit of the Education Technology Center Consortium.

For additional information, please Contact Debbie Guardado, Senior Coordinator, Education Technology at dguardado@slcoe.org or (805) 782-7264.

- eClass requires an additional fee.
