## ANSWERING PARENTS' QUESTIONS

Parents are invited to register for an online community discussion happening August 10th at 6:00PM about youth and the COVID-19 vaccine.

Children are returning to the classroom as COVID-19 cases are on the rise. It's understandable why some parents are concerned about COVID-19 and the vaccine.

This online event brings together four prominent local physicians to answer questions and to help parents decide if COVID-19 vaccine is right for their child. All questions are welcome.

Registration is limited, so please register early and submit your questions in advance.

Anyone can view the webinar live on the San Luis Obispo County Office of Education YouTube channel, but only registered participants can submit questions. A recording of the webinar will be made available later on the YouTube channel with closed captioning in English and Spanish.
