

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: San Luis Obispo County Office of Education
CDS Code: 40104050000000
School Year: 2021-22
LEA Contact Information: Katherine Aaron |
kaaron@slocoe.org | 8057827321

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2021-22 LCAP Year

Projected Revenue by Fund Source

Source	Funds	Percentage
All Other State Funds	\$236,586	10%
All Local Funds	\$226,800	9%
All Federal Funds	\$292,309	12%
Total LCFF Funds	\$1,730,278	69%

Breakdown of Total LCFF Funds

Source	Funds	Percentage
LCFF S/C Grants	\$527,660	21%
All Other LCFF Funds	\$1,202,618	48%

These charts show the total general purpose revenue San Luis Obispo County Office of Education expects to receive in the coming year from all sources.

The total revenue projected for San Luis Obispo County Office of Education is \$2,485,973, of which \$1,730,278 is Local Control Funding Formula (LCFF), \$236,586 is other state funds, \$226,800 is local funds, and \$292,309 is federal funds. Of the \$1,730,278 in LCFF Funds, \$527,660 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

Budgeted Expenditures in the LCAP

This chart provides a quick summary of how much San Luis Obispo County Office of Education plans to spend for 2021-22. It shows how much of the total is tied to planned actions and services in the LCAP.

San Luis Obispo County Office of Education plans to spend \$29,655,301 for the 2021-22 school year. Of that amount, \$2,013,568 is tied to actions/services in the LCAP and \$27,641,733 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

SLOCOE operates many programs that are not included in the LCAP. These programs include, but are not limited to, county operated special education programs, infant and early childhood programs and a charter school. The funds SLOCOE receives for these programs are not included in this LCAP.

Increase or Improved Services for High Needs Students in the LCAP for the 2021-22 School Year

In 2021-22, San Luis Obispo County Office of Education is projecting it will receive \$527,660 based on the enrollment of foster youth, English learner, and low-income students. San Luis Obispo County Office of Education must describe how it intends to increase or improve services for high needs students in the LCAP. San Luis Obispo County Office of Education plans to spend \$685,481 towards meeting this requirement, as described in the LCAP.

Update on Increased or Improved Services for High Needs Students in 2020-21

Prior Year Expenditures: Increased or Improved Services for High Needs Students

This chart compares what San Luis Obispo County Office of Education budgeted last year in the Learning Continuity Plan for actions and services that contribute to increasing or improving services for high needs students with what San Luis Obispo County Office of Education estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2020-21, San Luis Obispo County Office of Education's Learning Continuity Plan budgeted \$781,268 for planned actions to increase or improve services for high needs students. San Luis Obispo County Office of Education actually spent \$859,692 for actions to increase or improve services for high needs students in 2020-21.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone

Annual Update for the 2019–20 Local Control and Accountability Plan Year

The following is the local educational agency’s (LEA’s) analysis of its goals, measurable outcomes and actions and services from the 2019-20 Local Control and Accountability Plan (LCAP).

Goal 1

San Luis Obispo Court and Community Schools is committed to providing our students with access to a rigorous academic experience, preparing them for their next placement.

State and/or Local Priorities addressed by this goal:

State Priorities: 1 2 3

4 5

Annual Measurable Outcomes

Expected	Actual
----------	--------

Class size data: 23:1	Class size data: 23:1 Outcome Met
Elements offered through MTSS and fidelity ratings when applicable. Court and Community School – TFI will increase. Both sites will continue to strengthen schoolwide PBIS at Tier 1 across all settings with matrix lessons explicitly taught daily. Use data-based decisions to provide targeted interventions to students in Tier 2 and Tier 3.	Community School TFI Tier 1-80% Tier 2-35% Tier 3-65% Juvenile Court School TFI Tier 1-70% Tier 2-Not complete Tier 3-Not complete Outcome Met
Increase the number of students meeting standard on the CAASPP - 5% in Math, 15% in ELA	Due to the COVID-19 pandemic and school closures, the CAASPP assessment was waived for the 2019-2020 school year. Outcome Not Met
Ensure 100% of students, including ELs, receive instruction using integrated and designated instruction, which includes the use of the English 3D curriculum to enable ELs, as well as all our students, access to CCSS and ELD standards for purposes of gaining academic content knowledge and making academic growth. 100% of all students will consistently receive instruction using integrated and designated instruction, which includes the use of the English 3D curriculum to enable ELs, as well as all our students, access to CCSS and ELD standards for purposes of gaining academic content knowledge and making academic growth.	100% of students, including ELs received instruction using integrated and designated instruction, including the use of the English 3D curriculum. Outcome Met

Actions/Services

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
SLOCOE will maintain campuses with small class sizes of 23:1 providing a coherent program of study based on the CCSS, the College Career Readiness standards and the Schoolwide Learner Outcomes (SLOs). Modified for budget only	\$316,634.78 0240 Certificated and classified salaries	\$290,312.20
Court and Community School will continue to increase MTSS implementation. The teachers will use classroom evidence-based practices to fully implement Tier 1 and use data-based decisions for academic and behavior Tier 2 and Tier 3 interventions. Modified for budget only	\$63,370.56 0240 Certificated and classified salaries	\$107,286.36

Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

All Actions/Services were implemented.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

SLOCOE was able to maintain campuses with small classes of 23:1 with a blended learning program that decreased the number of students on campus at any one time. Students were provided with a program of study aligned to CCSS including integrated and designated instruction using English 3D curriculum to meet the needs of students classified as English learners. Students also had daily instructional activities based on our PBIS matrix. In addition, we modified our PBIS matrix following school closure to reflect behavior expectations during distance learning. Our PBIS Implementation team met monthly throughout the school year. The Tier II/III Implementation team met monthly beginning in January to review behavioral data and plan for interventions. This led to our fidelity ratings, using the TFI, to increase in all tiers.

The most significant challenge in implementing the actions/services to achieve the goal was the the COVID-19 pandemic which resulted in school closures. However, all staff and stakeholders are to be commended for the quick response to ensuring each student had immediate access to technology, Wi-Fi, materials and supplies as well as providing the support needed to move from in-person instruction to a digital platform.

Goal 2

Administration and staff of the San Luis Obispo Court and Community Schools will provide additional opportunities and supports for students to become engaged in school, in their learning, and in the development and attainment of goals for their successful future

	\$5,400.00	
In order to address barriers to attendance, nursing staff will assist on-site administrators in bolstering attendance by providing ongoing case management. Modified for budget only	\$63,096.27 0240 Classified and certificated salaries	\$67,053.37

Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

All Actions/Services were implemented, with the exception of countywide transportation which ended on March 13, 2020 due to COVID-19 school closures.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

When in person, the schools were fully staffed, as planned, with site administration and a probation officer on site at all times. The probation officer ensures safety of all students and staff. School staff and probation staff received ongoing training in PBIS best practices and administrators, behavioral health specialists and probation staff attended the 2019 PBIS conference. A PBIS Behavior Matrix was implemented schoolwide and reinforced daily with a token economy system. The Matrix was modified to reflect expected behaviors during virtual instruction.

In addition, students had access to Drug and Alcohol counselors and County Behavioral Health therapists every day. Students accessed support as needed or with regularly scheduled appointments. A school nurse was also available, as needed, on site at least two days per week and virtually the rest of the days to offer support and health education to individual students.

When on campus, students reported feeling safer than in previous years, as evidenced by an increase in the positive rating on the School Climate Survey. All staff, including office staff, kitchen staff, probation, and County Behavioral Health and Drug and Alcohol staff were trained in DBT Steps-A curriculum to support students and build healthy coping and social skills.

Transportation was provided for all students via school bus with stops in many locations throughout the county. Students who could not access the school bus were provided with bus passes to access public transportation. Students received regular instruction and practice regarding expected bus behavior and positive bus behavior was incentivized through the PBIS system. Students needing extra support were identified and placed in Tier II interventions.

Site administrators focused on alternatives to suspension when responding to disciplinary matters and office referrals and implemented restorative practices, empathy building, increased school-home communication and increased referrals to County Behavioral Health and Drug and Alcohol services.

Following school closure, teachers, behavioral health specialists and administration communicated much more with families (via Google Meet, phone calls, texts, emails, social media, etc.) to offer academic intervention or support social emotional issues. Additionally, County Behavioral Health therapists and Drug and Alcohol Counselors provided services via phone or virtual platform and school staff continued to make referrals as needed.

The most significant challenge in implementing the actions/services to achieve the goal was the the COVID-19 pandemic which resulted in school closures. However, all staff and stakeholders are to be commended for the quick response to ensuring each student had immediate access to technology, Wi-Fi, materials and supplies as well as providing the support needed to move from in-person instruction to a digital platform.

Goal 3

This highly mobile at-risk population (including foster and non-foster youth) experiences multiple transitions. The administration and staff on the campuses will offer increased support to these students, to and from Court School, Community School, District Schools, College, Career, and Foster Placements.

Actions/Services

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
Expelled Plan ~ SLOCOE will continue to work with representatives from our local school districts to monitor the effectiveness of the county-wide tri-annual Expelled Plan.	The cost for the action is included as part of regular staff duties.	The cost for the action was included as part of regular staff duties.
County-wide Foster Youth ~ SLOCOE will continue to coordinate services, with local districts and agency representatives. Training will be conducted regarding new and existing laws. Quarterly meetings will be scheduled to ensure the educational opportunity and stability. Modified to better describe service provided.	The cost for the action is included as part of regular staff duties.	The cost for the action was included as part of regular staff duties.
Career Technical Education (CTE) will be provided.	The cost for the action is included as part of regular staff duties.	The cost for the action was included as part of regular staff duties.

Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

All Actions/Services were implemented.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

Thirty students completed a CTE class within the Hospitality, Tourism, and Recreation pathway. Many of those students studied for and earned their food handler’s certification and many students gained experience in preparing and cooking food items. Students were also provided with hands-on, application based learning through helping to prepare meals for students enrolled at Community School and in other SLOCOE programs. Additionally, students participated in teacher-led career preparedness activities such as drafting resumes, interview practice and career exploration surveys.

Through coordination with our homeless and foster youth liaison, many students and families were provided with support to access community resources, such as SAFE referrals or referrals to family advocacy and support organizations. In addition, students and families were provided access to necessities such as hygiene supplies, food, and clothing, as needed. This occurred both prior to school closure and throughout school closure. The homeless and foster liaison attended regular staff meetings to provide information and training to school staff regarding new and existing laws and resources available.

Through practicing alternatives to suspension, and through daily classroom instruction and practice using DBT Steps-A curriculum, students received regular exposure to and practice of social and coping skills that will prepare them for more successful transitions.

The most significant challenge in implementing the actions/services to achieve the goal was the the COVID-19 pandemic which resulted in school closures. However, all staff and stakeholders are to be commended for the quick response to ensuring each student had immediate access to technology, Wi-Fi, materials and supplies as well as providing the support needed to move from in-person instruction to a digital platform.

Goal 4

Administration and staff will increase caregiver/family involvement to support the success of students.

State and/or Local Priorities addressed by this goal:

State Priorities: 3
4 5
6

Local Priorities:

Annual Measurable Outcomes

Expected	Actual
100% of families and caregivers will be invited to participate in celebrations on campus, with at least 50% or above participation.	Monthly celebrations did not take place; one celebration took place during the fall semester. Due to the COVID-19 pandemic and school closures, there were no spring celebrations, with the exception of a “mobile” graduation ceremony. Outcome Not Met
100% of families/caregivers will have online access to student attendance and achievement data, with at least 50% or above participation.	100% of families/caregivers had online access to student attendance and achievement data with less than 50% participation. Outcome Not Met
100% of families will be communicated to in their home language.	100% of families were communicated in their home language. Outcome Met
Parent involvement at all IEPs - 100%	100% of parents were involved in the IEP process. Outcome Met

Increase Positive Attendance Rate - Community 72%, Juvenile Court 98%	Due to the COVID-19 pandemic and school closures, there is no attendance data available for the 2019-2020 school year. Outcome Not Met
Decrease suspension rate - Community 29%, Juvenile Court 0%	Community School-5.2% suspension rate Juvenile Court-0% suspension rate Outcome Met

Actions/Services

Planned Actions/Services	Budgeted Expenditures	Actual Expenditures
Community school staff and administration will provide families/caregivers with opportunities to positively engage with the school to celebrate student success. Modified to better describe service provided.	\$89,188.43 0240 2400-Classified Salaries and Benefits \$33,406.36 1305, 1340 and 1300- Certificated Salaries and Benefits	The amount budgeted for this action was in error. The cost for the action was included as part of regular staff duties.

	\$55,782.07	
Families/caregivers will have the opportunity to access student specific information online, i.e. attendance, grades, credit accrual Modified for budget only.	\$3,434.00 0240 Contracts	\$3,534.86
Modified for budget only.	\$23,233.84 0240 2900-Classified Salaries and Benefits	\$23,105.57

Goal Analysis

A description of how funds budgeted for Actions/Services that were not implemented were used to support students, families, teachers, and staff.

All Actions/Services were implemented.

A description of the successes and challenges in implementing the actions/services to achieve the goal.

Following school closure, teachers, behavioral health specialists and administration communicated much more with families (via Google Meet, phone calls, texts, emails, social media, etc.) to offer academic intervention or support social emotional issues.

Community school held one awards celebration at the end of the fall semester to celebrate student achievement. Students and families were provided with a pizza lunch on campus following the awards presentation. An ongoing challenge in getting families to participate in on-campus celebrations is the distance to the Community school from each student's district of residence. Many families are not able to attend due to work or family obligations or financial difficulties. Due to the Covid-19 pandemic, we were unable to hold another celebration in the spring semester and our graduation ceremony was modified to a "mobile" graduation ceremony in which school staff presented graduates with their diploma at their home.

Throughout both semesters, school staff regularly mailed families "Praise Cards" to recognize students for positive behavior. Students who adhered to expectations on the bus were given additional incentives in the form of a raffle ticket for higher end prizes, as well as communication home that the student had positive behavior.

One hundred percent of parents/guardians were involved in the IEP process for students receiving special education services both before and during school closure. Through increased use of virtual platforms, we were able to facilitate increased involvement and engagement during IEP meetings.

The most significant challenge in implement the actions/services to achieve the goal was the the COVID-19 pandemic which resulted in school closures. However, all staff and stakeholders are to be commended for the quick response to ensuring each student had immediate access to technology, Wi-Fi, materials and supplies as well as providing the support

needed to move from in-person instruction to a digital platform.

Annual Update for the 2020–21 Learning Continuity and Attendance Plan

Contract with San Luis Obispo County Behavioral Health to staff mental health therapists to provide Educationally Related Social Emotional Supports and Services (ERSESS)	\$40,894.00	\$40,894.00	Y
Maintenance, custodial and PPE	\$371,158.00	\$355,200.25	Y
Contract with Edgenuity to provide on-line learning classes	\$4,009.00	\$4,008.75	Y

A description of any substantive differences between the planned actions and/or budgeted expenditures for in-person instruction and what was implemented and/or expended on the actions.

The substantive differences between planned actions and budgeted expenditures is the adherence to safety protocols and the implementation of safety measures due to the COVID-19 pandemic. With regard to the other planned actions, there were no substantive differences between the planned actions and/or budgeted expenditures for the in-person learning and what was implemented and/or expended on the actions.

Analysis of In-Person Instructional Offerings

A description of the successes and challenges in implementing in-person instruction in the 2020-21 school year.

Beginning when state and local officials deemed it safe to offer in-person instruction and support, all SLOCOE schools began offering in-person support to small cohorts of students, including students with IEPs and 504s and students who were struggling with engagement during distance learning. On March 22, 2021, all SLOCOE schools officially reopened in hybrid models and any student who wanted to be on campus to receive academic support, meet with a therapist, have a quiet place to work, etc. was welcomed to come to campus, provided they followed safety protocols. Adherence to safety protocols and implementation of safety measures have been included in all plans. The use of personal protective equipment (PPE) has been required of students and staff. The district has supplied PPE to ensure the safety of both staff and students, including multiple "COVID carts" stocked with disinfectant, hand sanitizer, masks, gloves, thermometer, and information sheets in multiple locations around the campus. Signage and social distancing support materials have been displayed for clarity of safety procedures and protocols. Cleaning and sanitizing of all student and staff areas have been completed on a daily basis. Physical space of the office and classrooms have been arranged to adhere to all safety requirements. Safety barriers in high traffic areas, including front office counter spaces have been created. All staff on campus are required to answer COVID related screening questions prior to logging on their computer. In addition, all staff who are on campus participate in bi-monthly surveillance testing.

Transportation is offered via bus at regularly scheduled times and bus stops throughout the community. We worked with the transportation department to implement practices on the bus that included physical distancing and screening (temperature screening and questionnaire) students prior to entering the bus. For students for whom bus transportation is

not an option, due to location or time constraints, we have arranged individualized transportation to get them to and from campus either through a bus pass for local public transportation or through a staff member transporting students in a district vehicle. A significant challenge facing Community school as we increase in-person offerings are the defiant behaviors around COVID safety protocols. Students receive prompting in a variety of modalities (verbal, gestural, etc.) to wear masks correctly, distance, or wash or sanitize hands.

However, our successes, it seems, have outweighed the challenges, and the move to in-person opportunities to connect with students have benefitted students and have reinvigorated staff.

2020-21 Local Data: average credit accrual

Community:

Fall 2019 = 14.0 credits

Fall 2020 = 18.0 credits

Spring 2021 = 24.33 credits

Court:

Fall 2019 = 8.85 credits

Fall 2020 = 8.61 credits

Spring 2021 = 13.45 credits

Distance Learning Program

Actions Related to the Distance Learning Program

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
All actions listed under In-Person Instructional Offerings apply to the Distance Learning Program	N/A	N/A	N
Purchase hotspots and monthly services to provide wifi access to all students	\$10,918.01	\$23,718.94	Y
Purchase of cell phones and monthly services to provide open communication between staff and students and families	\$3,000.00	\$2,293.40	Y
Implementation of case management coaching program to increase student engagement-included in cost of staff under In-Person Instructional Offerings	N/A	N/A	N
Contract with CUE to provide professional development to all staff regarding the Google platform and distance learning	\$3,000.00	\$1,000.00	Y

A description of any substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions.

There were no substantive differences between the planned actions and/or budgeted expenditures for the distance learning program and what was implemented and/or expended on the actions. It has been determined that even if all students are back in-person during the 21-22 school year, there will be an ongoing need for access to technology including access to Wi-Fi. Because of this, SLOCOE has expended dollars to extend the hotspots monthly service.

Analysis of the Distance Learning Program

A description of the successes and challenges in implementing each of the following elements of the distance learning program in the 2020-21 school year, as applicable: Continuity of Instruction, Access to Devices and Connectivity, Pupil Participation and Progress, Distance Learning Professional Development, Staff Roles and Responsibilities, and Support for Pupils with Unique Needs.

“Distance learning” refers to instruction in which the student and instructor are in different locations. This may include interacting through the use of a computer and/or communications technology, as well as delivering instruction and check-in time with the teacher. Distance learning may include video or audio instruction in which the primary mode of communication between the student and instructor is online interaction, instructional television, video, telecourses, or other instruction that relies on computer or communications technology. It may also include the use of print materials incorporating assignments that are the subject of written or oral feedback.

Prior to the start of the 2020-21 school year, SLOCOE contracted with CUE to provide professional development to all staff regarding the Google platform and distance learning. In March and April of 2020, as well as at the beginning of the 2020-21 school year, Community and Court schools distributed Chromebooks to every student needing a device (approximately 90% of enrolled students) to access daily synchronous and asynchronous instruction by our teachers. Teachers used Google Classroom and Google Meet as the primary tools for delivering instruction and assignments. During our individual enrollment meetings, all students and families received essential training on how to operate the Chromebook, a unique login, how to access their Gmail, Google Classroom and how to connect via Google Meet. Additionally, we provided some simple and frequently used troubleshooting techniques to resolve anticipated glitches. Where students lack internet connectivity in their homes, families were issued hotspots for them to gain access.

A daily schedule of live instruction over Google Meet was developed ensuring that students had access to the full curriculum and were continuing to make progress toward their high school diploma. All students were enrolled in all core classes as well as PE and electives. CTE classes were also available to interested students and the CTE teacher provided differentiated lessons and assignments based on student interests and goals. Staff leveraged online tools, instructional videos, and supplemental curriculum to ensure that each student’s schedule was individualized toward their specific needs. Classes ran daily with teachers providing live instruction with support from behavior health specialists. Time was allocated to work with students 1:1 as needed or in small groups for tiered supports or further individualized instruction. All teachers, including the resource teacher, provided support and additional intervention during study skills hour daily.

Students struggling with engagement, either through self or family report, or through staff data analysis were offered on-campus, in-person support with transportation offered as needed. On a case by case basis, hard copy packets were made

available for students for whom it became clear that they required the hard copy for optimal engagement. In addition, school staff made contact daily to offer support via phone or videoconference. Prior to moving away from technology, because we believe it is an important life skill, effort to support the student in using the Chromebook to access instruction as well as to complete and turn in their assignments was provided.

We believe it is essential that our students feel connected and are engaged with our staff in order for them to be successful. The feedback we received from parents regarding increased communication between school staff and students, prompted the development of a Coaching Plan through which we assigned a small group of students to each teacher and behavioral health specialist, who acted as a coach to encourage engagement in distance learning, created student-led goals and action plans and built healthy adult relationships. Staff members made individual contacts approximately three times per week to set goals, provide support and assistance, intervene as necessary, encourage and hold students accountable. These relationships provided the motivation and progress monitoring necessary to help students be successful and they have been an early source of intervention when students are struggling. We know that the emotional and mental health needs of the students is paramount to their engagement in distance learning, so in addition to all core subjects, all students participated and had access to instruction and practice in DBT-Steps A curriculum--a social emotional, school based curriculum that helps adolescents manage difficult emotional situations, cope with stress, and make better decisions.

2020-21 Local Data: average credit accrual

Community:

Fall 2019 = 14.0 credits

Fall 2020 = 18.0 credits

Spring 2021 = 24.33 credits

Court:

Fall 2019 = 8.85 credits

Fall 2020 = 8.61 credits

Spring 2021 = 13.45 credits

Pupil Learning Loss

Actions Related to the Pupil Learning Loss

Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
NWEA benchmark assessments three times a year in English language arts and math	\$1,500.00	\$1,500.00	Y
SDQ Strengths and Difficulties Questionnaire proctored to each student and parent to assess each student's mental health status	\$420.00	\$243.10	Y
Services for English learners	\$2,631.20	2,263.50	Y

A description of any substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions.

There were no substantive differences between the planned actions and/or budgeted expenditures for addressing pupil learning loss and what was implemented and/or expended on the actions.

Analysis of Pupil Learning Loss

A description of the successes and challenges in addressing Pupil Learning Loss in the 2020-21 school year and an analysis of the effectiveness of the efforts to address Pupil Learning Loss to date.

Administrators in collaboration with teachers have used the NWEA assessment system, curriculum based assessments, teacher observation and parent input to identify students who have experienced learning loss. Students had the opportunity to remotely take the English language arts and mathematics NWEA assessment in Fall 2020 and Spring of 2021. Administering the NWEA remotely was a challenge, particularly at the beginning of the year when the students were just developing their technology skills.

Based on the assessment results, as well as information gathered by teachers through observation, student work samples and parent input, academic supports have been offered to struggling students, both virtually and in-person. Student data, including both academic and attendance/engagement data was analyzed weekly by the Tier II/III Implementation team. The team included administration, school counselor, resource teacher, behavior intervention services specialist and the homeless and foster liaison. Together, the team reviewed data for all students and made collaborative decisions regarding interventions and supports provided to students and families.

Students who were identified as showing regression from pre-COVID assessments were offered instructional interventions, including individualized instruction and support either virtually or in person. Students who demonstrated adequate progress continued to receive targeted instruction to support continued growth. Those students with little to no growth continued with instructional interventions, and as needed, were referred to Student Study Teams for a more comprehensive intervention.

2020-21 Local Data - NWEA-Overall Average Score for Students
MATH: Fall 2019=213; Fall 2020=219; Spring 2021=220
READING: Fall 2019=211; Fall 2020=214; Spring 2021=211

Analysis of Mental Health and Social and Emotional Well-Being

A description of the successes and challenges in monitoring and supporting mental health and social and emotional well-being in the 2020-21 school year.

We believe it is essential that our students feel connected and are engaged with our staff in order for them to be successful. The feedback we received from parents regarding increased communication between school staff and students, prompted the development of our Coaching Plan through which we assigned a small group of students to each teacher and behavioral health specialist, who acted as a coach to encourage engagement in distance learning, created student-led goals and action plans and built healthy adult relationships. Staff members made individual contacts approximately three times per week to set goals, provided support and assistance, intervened as necessary, encouraged and held them accountable. These relationships provided the motivation and progress monitoring necessary to help students be successful and they were an early source of intervention when students were struggling. We know that the emotional and mental health needs of students are paramount to their engagement in distance learning, so in addition to all core subjects, all students participated and had access to instruction and practice in DBT-Steps A curriculum--a social emotional, school based curriculum that helps adolescents manage difficult emotional situations, cope with stress, and make better decisions. All school staff have been trained in DBT Steps-A curriculum and provided daily instruction and practice to students in coping and social skills, both individually and in group settings. Staff have paid careful attention to students' increased mental health concerns. Counseling, other support services, and/or referrals to other agencies were made to assist students in dealing with the social and emotional effects of COVID-19, such as stress, anxiety, depression, grief, and social isolation.

Students were referred to Mental Health or Drug and Alcohol services as requested at enrollment meetings, and throughout the school year. The Tier II/Tier III Implementation team met weekly to review engagement data and offered referrals or supports as needed to support student emotional health well-being and/or school re-engagement.

Students with IEPs or 504 plans who receive counseling services, were offered services as indicated in their plan. Therapists and counselors offered sessions virtually or via phone and any student could request in-person counseling services and to meet with a therapist or counselor.

The schools continued the use of PBIS matrices for behavior and an added distance learning matrix with continued incentives for students meeting these positive behaviors. In addition to our other assessments that monitored academic progress (curriculum-embedded assessments, NWEA), we adopted a social-emotional screener, the Strengths and Difficulties Questionnaire (SDQ). The SDQ allows us to monitor our students' social emotional progress, as well as our need to change our courses of action. The screener process will help to guide the work in MTSS, in which we are able to offer support in academics and behavior in order to help the student become more successful in reaching their academic and social/emotional needs.

SLOCOE has worked with internal staff to develop Mental Health Minute videos for employees that were posted on the SLOCOE website to address employee mental health. At the start of the 2019-2020 school year, the SPS department implemented Staff PBIS. All SPS staff were introduced to a Staff PBIS Matrix; staff are encouraged to recognize each other for being Safe, Responsible and Considerate. Each recognition is put into a lottery each month and two staff members receive a reward.

2020-2021 Local Data: School Climate Survey

Community school:

Personnel - 3.21 out of 4.0

Student - 3.26 out of 4.0

Families - 3.58 out of 4.0

Court school:

Personnel - 3.13 out of 4.0

Student - 2.48 out of 4.0

Families - Not enough respondents

Analysis of Pupil and Family Engagement and Outreach

A description of the successes and challenges in implementing pupil and family engagement and outreach in the 2020-21 school year.

Staff met weekly as a Tier II/Tier III Implementation team to review student engagement data and make decisions on appropriate interventions to offer students and families. The Tier II/Tier III Implementation team included administration, the homeless and foster youth liaison, school counselor, behavior intervention services specialist and resource teacher. The team reviewed data from each individual student and checked in with students and families regarding supports to re-engage students including offering referrals to mental health services, on-campus support, and/or assistance with daily living needs. Teachers facilitated conferences for all students midway through the Fall semester and met with parents virtually or via phone to discuss their child's progress. All teachers and behavioral health specialists were provided with a cell phone and regularly communicated with students and families.

2020-2021 Local Data: School Climate Survey

Community school:

Personnel - 3.21 out of 4.0

Student - 3.26 out of 4.0

Families - 3.58 out of 4.0

Court school:

Personnel - 3.13 out of 4.0

Student - 2.48 out of 4.0

Families - Not enough respondents

2021 Local Indicator: Parent and Family Engagement

Self-Reflection Survey Tool

Building Relationships between School Staff and Families - 4.25 out of 5.0

Building Partnerships for Student Outcomes - 3.75 out of 5.0

Seeking Input for Decision-making - 3.0 out of 5.0

Analysis of School Nutrition

A description of the successes and challenges in providing school nutrition in the 2020-21 school year.

The students enrolled at Court school are incarcerated youth who reside at the Juvenile Services Center. These students are provided three meals a day by San Luis Obispo County Probation. The students enrolled at Community school reside in their districts of residence which are located throughout the county. To eliminate the need for students and/or families to travel outside their district of residence while on distance learning, the students were provided school meals, by their district of residence through the National School Lunch program, including breakfast.

Once students returned to campus, students received breakfast and/or lunch, cooked on site, regardless of free, reduced or paid status. Approximately 50% of students moved from distance learning to in-person instruction when the campus reopened on March 22, 2021. From March 22 until spring break, students continued to obtain meals from their districts of residence as well as had access to nutritional options for breakfast, lunch and snack while on campus. Starting April 12 through June 2, 2021, breakfast and lunch were provided on campus through the National School Lunch program; 135 breakfasts were served and 165 lunches were served.

SLOCOE continued to provide updated information regarding food services, including local organizations that provide food for all family members, via SLOCOE’s website, automated calls, Remind app and direct phone calls, emails and letters.

Additional Actions and Plan Requirements

Additional Actions to Implement the Learning Continuity Plan

Section	Description	Total Budgeted Funds	Estimated Actual Expenditures	Contributing
Mental Health and Social Emotional Well Being	SDQ Strengths and Difficulties Questionnaire proctored to each student and parent to assess each student’s mental health status-included in Pupil Learning Loss section	N/A	N/A	N
Mental Health and Social Emotional Well Being	Contract with San Luis Obispo County Behavioral Health to staff mental health therapists and drug and alcohol counselors to provide prevention and early intervention student support counseling-included in Learning Continuity section	N/A	N/A	N
Mental Health and Social Emotional Well Being	Contract with San Luis Obispo County Behavioral Health to staff mental health therapists to provide Educationally Related Social Emotional Supports and Services (ERSESS)-included in Learning Continuity section	N/A	N/A	N

A description of any substantive differences between the planned actions and budgeted expenditures for the additional plan requirements and what was implemented and expended on the actions.

There were no substantive differences between the planned actions and budgeted expenditures for the additional plan requirements and what was implemented and expended on the actions.

Overall Analysis

An explanation of how lessons learned from implementing in-person and distance learning programs in 2020-21 have informed the development of goals and actions in the 2021–24 LCAP.

A major success we experienced this last year was the relationship building, the increased family/caregiver communication, and the building of skills around goal setting and accountability experienced by our students through the coaching program implemented at the beginning of the 2020-21 school year. Additionally, lessons learned throughout school closure through the distance learning program and the in-person offerings, reinforced our belief that it is through positive relationships between students and staff, students and students, and staff to home, that students are most successful. Professional development surrounding building positive relationships and continuing to reinforce and strengthen our MTSS and PBIS frameworks will be crucial elements of the action plans for the 2021-22 through 2023-24 LCAP.

An explanation of how pupil learning loss continues to be assessed and addressed in the 2021–24 LCAP, especially for pupils with unique needs.

Administrators in collaboration with teachers will continue to use the NWEA assessment system, curriculum based assessments, teacher observation and parent input to identify students who have experienced learning loss. Additionally, students participated in ELPAC and CAASPP statewide assessments in the spring of 2021.

Based on the assessment results, as well as information gathered by teachers through observation, student work samples and parent input, academic support will be offered to struggling students. Student data, including both academic and attendance/engagement data will be analyzed weekly by the Tier II/III Implementation team.

Students identified as showing regression from pre-COVID assessments will be offered instructional interventions, including individualized instruction and support. Students who demonstrate adequate progress will continue to receive targeted instruction to support continued growth. Those students with little to no growth will continue with instructional interventions, and may be referred to Student Study Teams for a more comprehensive intervention. Students will have the opportunity to receive support over summer, either virtually or in person with a dual-credentialed teacher. Over summer, students can receive academic support to recoup skills and continue to accrue credits.

Goals, actions and services in the 202122 through 2023-24 LCAP reflect the commitment made to address learning loss,

including 23:1 class size, nursing case management, mental health support, MTSS implementation, transportation, communication in home language, career technical education and parent engagement.

A description of any substantive differences between the description of the actions or services identified as contributing towards meeting the increased or improved services requirement and the actions or services implemented to meet the increased or improved services requirement.

There are no substantive differences between the description of the actions or services identified as contributing towards meeting the increased or improved services requirement and the actions or services implemented to meet the increased or improved services requirement. Due to the high percentage (90%) of unduplicated students served in our programs, all of our students benefit from the intensive programs and services.

Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan

A description of how the analysis and reflection on student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP.

After an analysis and reflection on student outcomes in the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan, the following data and information informed the development of the 2021-22 through 2023-24 LCAP:

-Based upon the increase in the average student credit accrual, we are taking the lessons learned during distance learning and incorporating them into the regular programming. These include, but are not limited to 100% student access to technology and WiFi, the individualized coaching model, staff access to cell phones to engage families, professional learning opportunities and ongoing assessment of student academic, behavioral and social emotional needs.

-Due to the continued qualification for Differentiated Assistance, the following will be addressed and implemented:

1. continued use of other means of correction and alternatives to suspension to address student discipline issues to decrease the suspension rate
2. continued use of nursing case management to address barriers to attendance
3. continued use of integrated and designated instructional strategies, which includes the use of the English 3D curriculum, to enable English learners, as well as all other students, access to CCSS and ELD standards for purposes of gaining academic content knowledge and making academic growth
4. increased implementation of career technical education to enable students to be prepared for college and career
5. full implementation of an MTSS model that addresses academic achievement, as well as behavioral and social emotional needs, to enable students to be prepared for college and career

Overall Analysis of the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan

The Overall Analysis prompt is to be responded to only once, following the analysis of both the 2019-20 LCAP and the 2020-21 Learning Continuity and Attendance Plan.

- Describe how the analysis and reflection related to student outcomes in the 2019-20 LCAP and 2020-21 Learning Continuity and Attendance Plan have informed the development of the 21-22 through 23-24 LCAP, as applicable.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
San Luis Obispo County Office of Education	Katherine Aaron Assistant Superintendent	kaaron@slocoe.org 8057827321

Plan Summary 2021-24

General Information

A description of the LEA, its schools, and its students.

San Luis Obispo County covers 3,616 square miles and has over 33,000 students enrolled in our public schools. Students in the county are enrolled in ten local school districts, the San Luis Obispo County Office of Education (SLOCOE), or three district authorized charter schools. The Alternative Education department, located in the Student Programs and Services division of SLOCOE, operates two schools, San Luis Obispo County Community school and San Luis Obispo County Juvenile Court school for which we receive Local Control Funding Formula (LCFF) funds. The Court school consists of one custody unit classroom and one camp classroom, Coastal Valley Academy, serving incarcerated youth. The Community school serves students referred by the local school districts and/or charter schools due to expulsion from their regular school or referred by the School Attendance Review Board (SARB). Many of our students have been affected by one or more significant traumas, including drug and alcohol abuse, homelessness, criminal activity, truancy, expulsion, poverty, academic failure, and parental incarceration. As a result of our changing enrollment, we are continually making adjustments

in our program. It is our goal to remain fiscally responsible, while keeping our campuses safe and continuing to support the programs that are showing positive results for the students who are enrolled.

The Special Education department, located in the Student Programs and Services division of SLOCOE, operates one school, San Luis County Special Education school which is a fee based program that does not receive LCFF funds. The Special Education school consists of four classrooms; one Preschool-6th grade deaf and hard of hearing classroom, one 7th grade-8th grade deaf and hard of hearing classroom, one 3rd grade-8th grade intensive therapeutic learning classroom and one 8th grade-12th grade intensive therapeutic learning classroom. All four of these classrooms are co-located on district campuses throughout the county. The Special Education school currently qualifies as needing Comprehensive Support and Improvement.

SLOCOE has been identified as needing Differentiated Assistance due to college and career readiness, English learner progress, suspensions and chronic absenteeism for students with disabilities, English learners and socioeconomically disadvantaged youth. The overall suspension rate for the 2019-20 school year was 5.2% at the Community school and 0% at the Court school. The overall graduation rate for the 2019-20 school year was 47.1% at the Community school and 68.8% at the Court school. Due to the COVID-19 pandemic and school closures, CAASPP was waived for the 2019-20 school year. On the 2018-19 CAASPP, 0% of our students met standard in Math and 0% met standard in English Language Arts. The overall participation rate for the 2018-19 school year was 71% ELA and 71% for Math. Due to the COVID-19 pandemic and school closures, there is no attendance data available for the 2019-20 school year. At the Community school, the overall attendance rate for the 2018-19 school year was 70% and at Court school the overall attendance rate was 98%. No students were prepared under the College and Career Indicator. English learner progress was at 13.3% at Community school and because of the small number of students enrolled at Court school, no data was available; no student was reclassified.

2020-2021 DataQuest:

-Student Enrollment:

-Community - 78 (African American-1; Hispanic or Latino-49; White-26; Two or More Races-2)

-Court - 11 (African American-1; American Indian or Alaska Native-1; Hispanic or Latino-5; White-3; Two or More Races-1)

-Subgroups

-Community - English Learners-17; Foster Youth-1; Homeless Youth-25; Migrant Education-0; Students with Disabilities-18; Socioeconomically Disadvantaged-69

-Court - English Learners-2; Foster Youth-0; Homeless Youth-0; Migrant Education-0; Students with Disabilities-8; Socioeconomically Disadvantaged-11

We have identified four major goals to support student learning in our schools. All four goals align to the goals identified in the School Plan for Student Achievement (SPSA) and the plan required for accreditation from the Western Association of Schools and Colleges (WASC).

The following areas of the state priorities do not apply to SLOCOE schools for the reasons indicated below:

- Our students are not enrolled long enough to satisfy UC or CSU requirements and/or EAP requirements.
- While our students participate in the yearly ELPAC assessments, they are not enrolled long enough to receive the instruction that will lead to progress toward proficiency and/or reclassification.
- While our students are offered the opportunity to enroll in AP courses, they are not enrolled long enough to complete said courses that would lead to AP credits.

- Students are not expelled from SLOCOE schools.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

The staff, students and stakeholders should be commended for the following successes and progress:

The continued implementation of PBIS which included state level Silver recognition at both Community and Court schools in 2019 and the Community Cares recognition in 2020 as well as the ability to now apply for Platinum recognition at the Community school and Silver recognition at the Court school. The continued implementation of the Dialectical Behavior Therapy (DBT) social emotional curriculum along with a designated daily class period for instruction. The support offered to students in transition, including, but not limited to foster youth, homeless youth and incarcerated youth. Countywide support offered to foster, homeless and expelled youth. Increased parent engagement as evidenced by engagement records and 100% parent involvement in IEP meetings. Continued offering of CTE programming. Increase in student engagement as evidenced by overall increase in student climate survey, student engagement data and increase in credit accrual. The decrease in the suspension rate due to the increased use of other means of correction and alternatives to suspension. 100% of all students have access to technology and WiFi. In October 2020, the Court and Community schools had a Western Association of Schools and Colleges (WASC) probationary accreditation virtual visit; that visit resulted in the Commission removing probation and restoring accreditation status. The accreditation status continues through June 30, 2025 with a Mid-cycle Visit in 2021-22. The implementation of an individualized coaching model to address student engagement during school closure which resulted in increased credit accrual. 100% of families were communicated to in their home language.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

The mobility of our student population continues to present a challenge. Our schools serve the most at-risk youth in our county. The continual needs of students are ever changing and individual.

SLOCOE has been identified as needing Differentiated Assistance due to college and career readiness, English learner progress, suspensions and chronic absenteeism for students with disabilities, English learners and socioeconomically disadvantaged youth. The overall suspension rate for the 2019-20 school year was 5.2% at the Community school and 0% at the Court school. The overall graduation rate for the 2019-20 school year was 47.1% at the Community school and 68.8% at the Court school. Due to the COVID-19 pandemic and school closures, CAASPP was waived for the 2019-20 school year. On the 2018-19 CAASPP, 0% of our students met standard in Math and 0% met standard in English Language Arts. The overall participation rate for the 2018-19 school year was 71% ELA and 71% for Math. Due to the COVID-19 pandemic and school closures, there is no attendance data available for the 2019-20 school year. At the

Community school, the overall attendance rate for the 2018-19 school year was 70% and at Court school the overall attendance rate was 98%. No students were prepared under the College and Career Indicator. English learner progress was at 13.3% at Community school and because of the small number of students enrolled at Court school, no data was available; no student was reclassified.

Areas of focus will include the five areas of follow-up from our WASC action plan:

- Use of data analysis to improve student outcomes
- Use of student data to determine professional development offerings
- Outreach for parents/guardians
- Classroom management/student engagement/student morale
- Academic rigor/implementation of common core state standards

SLOCOE will address the areas of greatest need identified above by regularly monitoring the above WASC action plan items during weekly leadership meetings including designing a professional development plan with staff, establishing data protocols, convening PLC meetings to examine student work and achievement of the standards, convening of the PBIS Implementation team and the PBIS Tier II/III team to ensure full implementation of PBIS, including student and staff matrix and recognition, and a level system to address classroom management, student engagement and morale. SLOCOE will also fully implement MTSS, including Tier 2 and Tier 3, academic and behavioral interventions. SLOCOE will continue to incorporate alternatives to suspensions.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

SLOCOE focuses on four goals in the areas of:

- Academic achievement
 - small class sizes at 23:1
 - full implementation of an MTSS model to address academic, behavior and social/emotional needs
 - increase English learner progress
- Student engagement
 - probation support on campuses to ensure student and staff safety
 - full implementation of PBIS at 70% of above at all levels
 - mental health counseling available to all students
 - countywide transportation available to all students
 - facilities that are in good repair
 - nursing case management to address barriers to attendance
- Support transitions for all students
 - coordinated countywide services for expelled youth
 - coordinated countywide services for foster youth
 - career technical education offerings
- Family engagement
 - family access to online student information system
 - communication to all families in their home language

-professional learning opportunities for staff and families to increase input at advisory committees

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

San Luis County Special Education school

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

SLOCOE has been identified as needing Differentiated Assistance due to being in the red in the areas of college and career readiness, English learner progress, suspensions and chronic absenteeism for students with disabilities, English learners and socioeconomically disadvantaged youth. The San Luis County Special Education school has been identified as a school in need of Comprehensive Support and Improvement (CSI) due to all state indicators being red but with one indicator of any other color. Due to low enrollment numbers, it should be noted that the San Luis County Special Education school only had two indicators with color; Chronic Absenteeism was in the red and Suspension rate was in the green. SLOCOE has also been identified as needing Targeted Assistance which required the submission of a Special Education Plan to the California Department of Education due to suspension rate and higher education results for students with disabilities.

Due to the COVID-19 pandemic and school closures, no statewide assessment data is available for the 2019-2020 school year. The following data is from the 2018-2019 school year for all SLOCOE students: on the CAASPP, in the area of English language arts, SLOCOE students are 133.9 below standard and in the area of math, SLOCOE students are 208.5 points below standard; the overall graduation rate was 71.1%; the overall chronic absenteeism rate is at 45.7%; the overall participation rate was 71% in ELA and 71% in math; the overall suspension rate was 15.4%. It should be noted, for the San Luis County Special Education school, there is no graduation rate as students are returned to their district of residence upon completion of their credits to graduate from that district. Lastly, it should be noted that the chronic absenteeism rate is so high at the San Luis County Special Education school due to the provision of services to the medically fragile population; starting the 2020-2021 school year, the San Luis County Special Education school will no longer be serving the medically fragile population.

The San Luis County Special Education school has long standing structures in place for communication with stakeholders or people affected by SLOCOE and its daily work. Stakeholder consultation is frequent, timely and meaningful. Various meetings have standing agenda items to review and discuss the School Plan. Stakeholder groups include: School Site

Council, Special Education Oversight Committee, DELAC, all local districts, and County Board of Education. There are annual IEP meetings for each student enrolled at the Special Education school as well as parent meetings with families and individual parent conferences.

Because of the need to address CSI, Differentiated Assistance and the Targeted Assistance Special Education Plan, the LEA decided that all these processes needed to be aligned in order to better meet the needs of the students. Through the School Plan planning process, which now includes the monitoring of the CSI plan, the differentiated assistance institute and the Targeted Assistance Special Education Plan, the LEA was able to conduct a school level needs assessment which led to the identification of evidence based interventions and assured all state indicators were addressed, including student performance against state determined long term goals. These interventions included the need to build capacity through professional development, the need to address behavioral and academic needs at the Tier 2 and Tier 3 levels, the need to continue full implementation of MTSS, including PBIS, the need to focus on the social emotional development of students, the need to support students during transitions and the need to focus on parent engagement. On January 29, 2019, the LEA attended an informational meeting with the Kern County Office of Education (KCOE) to learn about the continuous improvement process associated with differentiated assistance. On February 25 and 26, 2019, the LEA and stakeholders participated in a preinstitute with KCOE as the facilitator at which a data inquiry was conducted to inform and develop a problem of practice. On April 9 and 10, 2019, the LEA joined Los Angeles County Office of Education, Fresno County Superintendent of Schools and KCOE for a two day institute to conduct a root cause analysis, develop a theory of action and develop an action plan. At the April 9 and 10 meeting dates, the LEA and stakeholders determined that the problem of practice and root causes directly aligned with the areas identified by the CA Dashboard as needing improvement. On June 10 and 24, 2019, these same entities came together to decide on high leverage initiatives to address the root causes. These initiatives included: intentionally building relationships, universally identifying student needs and regularly analyzing student data. Throughout the 2019-20 school year, there were various follow-up meeting days with KCOE to track outcome data, review the action plan and build capacity around implementation of the initiatives. During the 2020-21 school year, SLOCOE met with KCOE during the winter and spring months to review and update the action plan which included reestablishing implementation of the initiatives, assigning tasks and developing a professional development plan for August 2021.

Specifically, SLOCOE will address areas of need using actions and services that include, but are not limited to the following:

- Intentionally Building Relationships
- Train all staff in Clayton Cook's Establish, Maintain, Restore protocol
- Develop an accountability plan for the Establish, Maintain, Restore protocol
- Universally Identify Student Needs
- Research and identify a universal academic screener
- Universally implement the social emotional Strengths and Difficulties Questionnaire
- Utilize data from the universal screeners for instruction and referral to tiered interventions
- Regularly Analyze Student Data
- Set data review calendar
- Train staff in Team Initiated Problem Solving
- Commit to data-based decisions

At the San Luis County Special Education school, while enrollment changes frequently, approximately 70% of our students are identified as socioeconomically disadvantaged and 100% of the students are identified as students with disabilities. Because of this, all resources are allocated to all students. The San Luis County Special Education school does not have any resource inequities.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

As is indicated above, the LEA plans to collect data on an ongoing basis, including outcomes from the CA Dashboard along with local data, to monitor and evaluate the implementation and effectiveness of the CSI plan. The LEA is partnering with all stakeholders to build capacity and monitor implementation. This includes, but is not limited to, participation and inclusion of stakeholders in the differentiated assistance process as outlined above and the Special Education Plan process as well as regular data review, monitoring of implementation and School Plan review at weekly SPS Leadership team meetings, quarterly SSC meetings, monthly Board of Trustee meetings and other monthly stakeholder meetings. The data to be reviewed will include, but not be limited to: Aeries data regarding attendance, credit accrual and suspensions; CAASPP and ELPAC results; NWEA results; PBIS data; CA Dashboard data; and the School Climate survey results. The overall CA Dashboard data will be reviewed upon receipt as well as on an ongoing basis to make decisions about the reorganization of the school. The CAASPP and ELPAC results will be reviewed upon receipt as well as on an ongoing basis for individual students in the planning of individualized instruction. The NWEA results will be reviewed three times yearly (fall, winter and spring) as well as on an ongoing basis for individual students in the planning of individualized instruction. PBIS and School Climate survey will be reviewed at least twice yearly (fall and spring) to assist in the full implementation of the MTSS model. The Aeries data will be reviewed on a monthly basis to ensure student engagement.

Stakeholder Engagement

A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.

July 2020-June 2021

Presentations were made reminding all stakeholders of the LCAP process, their opportunities to provide input, and the progress made toward the LCAP goals. During each of these presentations, updated information was provided regarding the goals, the metric data, and the budget information connected to the progress of the goals.

SLOCOE Staff and Onsite Agency Representatives - This group includes, teachers, support staff, school administration, Probation and County Behavioral Health support staff. Presentations were made at staff meetings and staff development throughout the school year. In Fall 2020 and Spring 2021, SLOCOE staff and onsite agency representatives were surveyed using the PBIS School Climate Survey. Also, in Spring 2021, SLOCOE staff participated in an employee engagement survey.

Juvenile Justice Commission (JJC) - The JJC is mandated by the California Welfare and Institutions Code (WIC) 225 and made up of 7 to 14 citizens living in the county. Commissioners are appointed by the Presiding Judge of the Superior Court of San Luis Obispo County with concurrence from the Juvenile Court Judge and serve a term of 4 years. JJC has been informed of the LCAP and Continuity Plan processes and as well as the LCAP goals progress. The Commission meets

monthly and SLOCOE is on each month's agenda. Official LCAP information is reported at least quarterly, and there is opportunity for questions and feedback.

Student Programs and Services (SPS) Leadership Team - This team consists of all managers, as well as teacher and classified representatives, who work for the SPS Department. The team meets weekly. LCAP updates are presented at least quarterly, and there is opportunity for questions and feedback.

Juvenile Services Advisory Committee - This committee is made up of managers and representatives from Probation, Behavioral Health, Superior Court, County Office of Education, District Attorney's Office, Court Appointed Special Advocates (CASA), Public Defenders, Attorneys, Foster and Homeless Youth Services, local law enforcement, and the Juvenile Court. LCAP updates have been provided and input has been requested at the regularly scheduled meetings.

Alternative Education Operations Committee (AEOC) - This team is made up of representatives from the districts in the county, SLOCOE personnel, Probation and SELPA. Regular updates are provided and input is requested at the quarterly meetings.

Families/Caregivers - This year, in a continued effort to involve more families/caregivers, we have incorporated information regarding the LCAP into other meetings that parents attend regarding their child's education such as enrollment meetings, student study team meetings, parent conferences and School Site Council. During enrollment, parents were provided with a survey regarding technology and student needs to address engagement. In Fall 2020 and Spring 2021, parents were also surveyed using the PBIS School Climate Survey.

Advisory Committee - The existing School Site Council (SSC) is used as the LCAP Parent Advisory Committee. This committee also represents the English learner population and acts as the District English Learner Advisory Committee (DELAC). The composition of the SSC includes elected members parents, teachers, students, staff, and agency partners as well as school administration. The LCAP information is regularly presented at the five SSC meetings.

Students - The student voice is heard throughout the year. Ongoing data is collected by site staff and administration. In Fall 2020 and Spring 2021, students were surveyed using the PBIS School Climate Survey.

SELPA - On April 13, 2021, SELPA, along with a representative from the Education Support Services department and the homeless and foster liaison, met with the LCAP team to review and provide input into the LCAP process and document to ensure the needs of students with disabilities were being addressed.

Bargaining units - California Teachers Association (CTA) and California School Employees Association (CSEA) were notified of meetings where they could provide input and support the development of the LCAP. Members have been involved in meetings throughout the year that have involved the budget process and planning that affects staffing and other relevant issues. Members of both bargaining units have been involved in committee meetings. The presidents of both associations were personally contacted prior to the Public Hearing.

Differentiated Assistance Team - This team is made up of administration, teachers, classified staff, Education Support Services staff, community stakeholders and staff from the Kern County Superintendent of Schools. The team developed initiatives to address areas of need as identified by the California School Dashboard. This team has regularly consulted with administration regarding needed changes in the LCAP to address the identified areas of need.

County Board of Education receives regular updates on LCAP progress and goals.

On April 2, 2021, a survey was emailed, in both English and Spanish, to all of the above stakeholders to solicit feedback as to the LCAP goals and actions including the seven supplemental instruction and support strategies that will be implemented to address learning loss. Input was also solicited during Spring parent-teacher conferences.

All survey results as well as input received at the above-referenced meetings were reviewed by administration and staff prior to the finalizing of the LCAP to ensure their recommendations were incorporated into the final document.

There was a public hearing held on June 17, 2021.

The County Board of Education approved this plan on June ____, 2021.

A summary of the feedback provided by specific stakeholder groups.

All stakeholders believed the current LCAP goals were still valid and needed to continue for the 2021-22 through 2023-24 LCAP. They also believed that it was important to continue the work addressed through the WASC, Differentiated Assistance and Special Education Plan and needed to be incorporated into the LCAP.

From the April 2, 2021 survey, we received 28 responses from SLOCOE staff, parents, students, community members, community partners, union representatives, district of residence administrators, probation and Juvenile Justice Commissioners. The results indicated the following:

- the need for a rigorous academic experience that is relevant (life skills), hands-on, rigorous and engaging;
- the need to engage students through increased life skills curriculum, mental health supports/counseling, transportation and a safe school environment;
- the need to address the many transitions students experience by increased instruction around life skills, increased instruction around college and career readiness, increased supports for students with IEPs and providing staff trainings; and
- the need to increase family engagement by increased opportunities for family get-togethers at school, parent education information sent home, parent education nights, and increased communication from school staff.

From the April 23, 2021 consultation with SELPA and other staff, it was determined that the LCAP process and Plan was addressing the needs of students with disabilities as well as foster youth, English learners and socioeconomically disadvantaged students.

A description of the aspects of the LCAP that were influenced by specific stakeholder input.

The LCAP was influenced and revised as a result of the input and comments received from community members, parents/guardians, students, and staff. The information was shared at school sites, stakeholder group meetings, cabinet and board meetings. The collective data provided direction into areas for improvement.

The LCAP is aligned with the WASC action plan, the SPSA and the Special Education Plan; updates were provided and

information was presented during all of these processes. SLOCOE participated in a WASC virtual probationary visit in October 2020. The goals and actions of the LCAP were incorporated into the Action Plan.

Based on the data collected and the consultations with our stakeholders, it was determined that our current LCAP goals were still valid and need to continue for the 2021-22 through 2023-24 LCAP. The stakeholders all believed that it was important to continue the work addressed through the WASC, Differentiated Assistance and Special Education Plan processes in the following areas:

- use of data analysis to improve student outcomes
- use of student data to determine professional development offerings
- outreach for parents/guardians
- classroom management/student engagement/student morale
- academic rigor/implementation of common core state standards
- college and career readiness, English learner progress, suspensions and chronic absenteeism for students with disabilities, English learners and socioeconomically disadvantaged youth
- suspension rate and higher education results for students with disabilities

School administration used the survey results and stakeholder input to develop supplemental instructional supports and strategies to meet the needs of the targeted populations, which include, but are noted limited to, low-income, English learners, foster youth, homeless students, students with disabilities, students at risk of abuse, neglect or exploitation, disengaged students, and students who are below grade level, including those that are credit-deficient or high school students at risk of not graduating. Given the students who the San Luis Obispo County Office of Education serves, enrolled students fall into one or more of these targeted populations. Additionally, the PBIS Tier II/III implementation teams, under the Multi-Tiered System of Supports, reviewed student data to determine the needed supplemental instructional supports and strategies. These supplemental instructional supports and strategies have been incorporated into the LCAP.

There was a public hearing held on June 17, 2021

Goals and Actions

Goals

Goal #	Description
Goal 1	SLOCOE is committed to providing students with access to a rigorous academic experience, preparing them for their next placement. The rigorous academic experience will help to increase graduation rates, increase students meeting standards and increase English learner proficiency. (Priority 1, Priority 2, Priority 3, Priority 4, Priority 5, Priority 6, Priority 7, Priority 8, Priority 9, Priority 10)

An explanation of why the LEA has developed this goal.

SLOCOE has been identified as needing Differentiated Assistance due to college and career readiness, English learner progress, suspensions and chronic absenteeism for students with disabilities, English learners and socioeconomically disadvantaged youth.

Measuring and Reporting Results

Metric #	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023-24

Actions

Action #	Title	Description	Total Funds	Contributing
Action #1	Small Class Sizes	SLOCOE will maintain campuses with small class sizes of 23:1 providing a coherent program of study based on the CCSS, the College Career Readiness standards and the Schoolwide Learner Outcomes.	\$648,110.00	No
Action #2	MTSS Implementation	SLOCOE will continue to work towards full MTSS implementation; teachers will use evidence-based classroom practices to fully implement Tier 1 and the school sites will use data-based decisions for academic, behavior and social emotional Tier 2 and Tier 3 interventions.	\$360,820.79	Yes
Action #3	English learner progress	SLOCOE will provide all students instruction, using integrated and designated instructional strategies, which includes the use of the English 3D curriculum, to enable English learners, as well as all other students, access to CCSS and ELD standards for purposes of gaining academic content knowledge and making academic growth.	\$0.00	No

Goal #	Description
Goal 2	SLOCOE will provide additional opportunities and supports for students to become engaged in school, in their learning and in the development and attainment of goals for their successful future. Increased student engagement will help to decrease chronic absenteeism, increase graduation rate, increase students meeting standards and decrease suspension rate. (Priority 1, Priority 2, Priority 3, Priority 4, Priority 5, Priority 6, Priority 7, Priority 8, Priority 9, Priority 10)

An explanation of why the LEA has developed this goal.

SLOCOE has been identified as needing Differentiated Assistance due to college and career readiness, English learner progress, suspensions and chronic absenteeism for students with disabilities, English learners and socioeconomically disadvantaged youth.

Goal #	Description
Goal 3	SLOCOE will offer increased support to the highly mobile at-promise student populations enrolled at the Court and Community schools that experience multiple transitions, including, but not limited to foster placements, between school districts, and into college and/or career. This increased support will help to increase graduation rate, decrease chronic absenteeism, decrease suspension rate, increase students meeting standards and increase number of students prepared on College and Career Indicator. (Priority 3, Priority 4, Priority 5, Priority 6, Priority 7, Priority 8, Priority 9, Priority 10)

An explanation of why the LEA has developed this goal.

SLOCOE has been identified as needing Differentiated Assistance due to college and career readiness, English learner progress, suspensions and chronic absenteeism for students with disabilities, English learners and socioeconomically disadvantaged youth.

The Budgeted Expenditures for Actions identified as Contributing may be found in the Increased or Improved Services Expenditures Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

All actions and expenditures of funds marked as contributing to increased or improved services were developed specifically to focus on the needs of our unduplicated population after an analysis of data and input from our stakeholders. All these actions are principally directed toward our unduplicated student population to help SLOCOE be effective in meeting the goals of the LCAP and the identified needs of the unduplicated student population. Since our unduplicated student population count is greater than 90%, all actions and services are being performed on a schoolwide or LEA-wide basis in order to increase efficiency, delivery and effectiveness of these actions and services.

Goal 1, Action 1-small class size

Principally Directed: Due to the nature of the students served in the SLOCOE programs, a significant gap exists between ALL of our students in comparison with students enrolled in other local county district schools in one or more of the following areas: academic achievement, attendance rates, suspension rates, graduation rates, college and career indicator rates and English learner progress rates. To bridge these gaps, SLOCOE has dedicated staff to ensure a 23:1 or less student to staff ratio that allows for individualized academic, behavioral and social emotional support.

Goal 1, Action 2-MTSS implementation

Principally Directed: Due to the nature of the students served in the SLOCOE programs, a significant gap exists between ALL of our students in comparison with students enrolled in other local county district schools in one or more of the following areas: academic achievement, attendance rates, suspension rates, graduation rates, college and career indicator rates and English learner progress rates. To bridge these gaps, SLOCOE has dedicated staff to implement an MTSS model that includes

Tier I, II and III academic, behavior and social emotional interventions.

Goal 1, Action 3-English learner progress

Principally Directed: Due to the nature of the students served in the SLOCOE programs, a significant gap exists between ALL of our students in comparison with students enrolled in other local county district schools in one or more of the following areas: academic achievement, attendance rates, suspension rates, graduation rates, college and career indicator rates and English learner progress rates. To bridge these gaps, SLOCOE has dedicated professional development, curriculum and instructional time, using integrated and designated instructional strategies, which includes the use of the English 3D curriculum, to enable English learners, as well as all other students, access to CCSS and ELD standards for purposes of gaining academic content knowledge and making academic growth.

Goal 2, Action 1-probation support

Principally Directed: Due to the nature of SLOCOE programs, the students who attend SLOCOE schools are highly mobile, at-promise and experience multiple transitions especially in comparison to students enrolled in other local county district schools. To bridge this gap, SLOCOE provides onsite probation officer support to help minimize these transitions by providing interventions for delinquent behavior with the goal of rehabilitation and return to district.

Goal 2, Action 2-PBIS implementation

Principally Directed: Due to the nature of the students served in the SLOCOE programs, a significant gap exists between ALL of our students in comparison with students enrolled in other local county district schools in one or more of the following areas: academic achievement, attendance rates, suspension rates, graduation rates, college and career indicator rates and English learner progress rates. To bridge this gap, SLOCOE has dedicated staff to implement Positive Behavioral Interventions and Supports that includes Tier I, II and III behavior interventions.

Goal 2, Action 3-access to mental health counseling

Principally Directed: Due to the nature of SLOCOE programs, the students who attend SLOCOE schools have been referred due to expulsions or chronic absenteeism. Many of our students have been affected by one or more significant traumas including a history of school failure. In order to meet expulsion rehabilitation plan requirements as well as SARB dispositions, SLOCOE provides onsite access, during the school day, to drug and alcohol and mental health counseling.

Goal 2, Action 4-access to transportation

Principally Directed: San Luis Obispo County covers 3,616 square miles and serves 13 LEAs. Due to the nature of SLOCOE programs, SLOCOE serves students referred by the 13 LEAs. A significant attendance gap exists between ALL of our students in comparison with students enrolled in other local county district schools. To bridge this gap, SLOCOE provides access to countywide transportation to address the transportation barrier to attending school on a regular basis.

Goal 2, Action 5-access to facilities in good repair

Principally Directed: Due to the nature of the SLOCOE programs, SLOCOE serves students referred by the 13 LEAs. A significant facilities gap exists between ALL of our students in comparison with students enrolled in other local county district schools. To bridge this gap, SLOCOE ensures access to facilities that are in good repair.

Goal 2, Action 6-nursing case management to address barriers to attendance

Principally Directed: Due to the nature of SLOCOE programs, the students who attend SLOCOE schools have been referred due to expulsions or chronic absenteeism. A significant attendance gap exists between ALL of our students in

comparison with students enrolled in other local county

district schools. To bridge this gap, SLOCOE has dedicated nursing case management hours to work with students and families to address barriers to attending school on a regular basis.

Goal 3, Action 1-countywide coordination of services to expelled pupils

Principally Directed: Due to the nature of SLOCOE programs, the students who attend SLOCOE schools have been referred due to expulsions or chronic absenteeism. A significant coordination of services gap exists between ALL of our students in comparison with students enrolled in other local county district schools. To bridge this gap, SLOCOE has dedicated administrative support to provide countywide coordination of services to ALL of our students, including the expelled youth.

Goal 3, Action 2-countywide coordination of services to foster youth

Principally Directed: Due to the nature of SLOCOE programs, the students who attend SLOCOE schools have been referred due to expulsions or chronic absenteeism and include those classified as foster youth. A significant coordination of services gap exists between ALL of our students in comparison with students enrolled in other local county district schools. To bridge this gap, SLOCOE has dedicated staff support to provide countywide coordination of services to ALL of our students, including foster youth.

Goal 3, Action 3-access to career technical education

Principally Directed: Due to the nature of the students served in the SLOCOE programs, a significant gap exists between ALL of our students in comparison with students enrolled in other local county district schools in one or more of the following areas: academic achievement, attendance rates, suspension rates, graduation rates, college and career indicator rates and English learner progress rates. To bridge these gaps, SLOCOE has dedicated staff to implement career technical education to work towards increasing attendance and engagement in all classes.

Goal 4, Action 1-family access to online student information system

Principally Directed: San Luis Obispo County covers 3,616 square miles and serves 13 LEAs. Due to the nature of SLOCOE programs, SLOCOE serves students referred by the 13 LEAs. A significant school access gap exists between ALL of our students in comparison with students enrolled in other local county district schools. To bridge this gap, SLOCOE provides family access to student data through the online student information system.

Goal 4, Action 2-communication to families in their home language

Principally Directed: Due to the nature of SLOCOE programs, the students who attend SLOCOE schools have been referred due to expulsions or chronic absenteeism. Many of our students have been affected by one or more significant traumas including a history of school failure and lack of parent/family engagement. In order to engage the families in the educational process, SLOCOE will provide communication to families in their home language.

Goal 4, Action 3-professional development to staff and families to increase school advisory input

Principally Directed: Due to the nature of SLOCOE programs, the students who attend SLOCOE schools have been referred due to expulsions or chronic absenteeism. Many of our students have been affected by one or more significant traumas including a history of school failure and lack of parent/family engagement. In order to engage the families in the educational process, SLOCOE will provide professional

learning opportunities to staff and families to work towards full implementation of building trusting relationships, creating welcoming environments, and effective engagement in advisory groups and decision making.

SLOCOE has calculated that it will receive \$527,660.00 in Supplemental and Concentration funding under the Local Control Funding Formula (LCFF). The proportionality percentage has been calculated at 9.15%. SLOCOE has demonstrated that it has met the proportionality percentage by expending all Supplemental and Concentration funds allocated to SLOCOE on services for the unduplicated populations as detailed in this plan in the Goals and Actions.

The actions and services represent continuous support offered to the student population we serve. The population served is at-risk and we provide professional development, increased technology, transportation, MTSS support, increased efforts towards family engagement, increased collaborative partnerships, career technical education, and coordinated countywide services to support foster youth and expelled pupils. The actions and services meet the needs of our unduplicated students and meet the requirements of the state priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

SLOCOE serves alternative education students that are among the most challenging students in the county. Our students are typically expelled, incarcerated, severely credit deficient, exhibit academic skills gaps, have special learning needs and/or have serious social emotional challenges facing them. Our programs are designed to meet these students' unique needs. Due to the high percentage of unduplicated students served in our programs, all of our students will benefit from the intensive programs and services principally directed to these unduplicated students. Such programs and services are designed to:

- 1. Bridge academic skills gaps
- 2. Address issues associated with mental health and drug abuse
- 3. Address the social emotional needs of our students
- 4. Increase parent/guardian and community engagement
- 5. Address the transitions of our highly mobile, at-risk population

SLOCOE has calculated that it will receive \$527,660.00 in Supplemental and Concentration funding under the LCFF and will spend \$685,480.90 towards providing services to foster youth, English learners and low-income students. The details of these expenditures are itemized in the Goals and Actions section of this plan and include: Goal 1, Action 2-full implementation of MTSS to address the academic, behavioral and social emotional needs of the unduplicated pupils; Goal 2, Action 6-nursing case management to address barriers to attendance of the unduplicated pupils; and Goal 4, Action 2-communicating to families in their home language to address family engagement for our English learners.
