SPEED OF TRUST FOUNDATIONS

Like water, trust is a vital substance in the life of an effective leader. When it is absent, relationships decay, initiatives fail, staff underperform, and students fail to achieve equitably.

Like a ripple in a pond, Trust begins with the leader. This LPL enables leaders to increase credibility, apply scientific behaviors that build trust, and to practice strategies that inspire people to perform at their best. Participants will conduct a 360-degree assessment, develop a leadership development plan, and understand how character and competence interact to determine their level of trust.

Facilitated by
