School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.

An IPM plan is required if a school district uses pesticides¹

IPM statement

It is the goal of San Luis Obispo County Office of Education to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: (Example: Focus on long-term pest prevention)

Our goal is to maintain a safe, healthy, and balanced biological environment in our classrooms, facilities, and outdoor space. Pests will be held to levels that prevent them from becoming health hazards, while utilizing the safest and most effective and appropriate methods.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title

Groundskeepers

Skilled Maintenance

Role in IPM program

Groundskeeping

Building maintenance

Pest management contracting

Pest management services are contracted to a licensed pest control business.

Pest Control Business name(s): Brezden Pest Control

Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: Brezden Pest Control

(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by

Brezden Pest Control and Operations Staff

and results are communicated to the IPM Coordinator.

(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Brezden Pest Control is contracted to install, bait, and monitor bait stations at our facilities, and to treat infestations. Our groundskeeper and skilled maintenance staff monitor and respond to lessor issues such as ants, groundsquirrels, and gophers.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Ants		9	4		Ø	~	V	
Gophers						Ø		
Squirrels					2	V	•	
Roaches	•				Ø			Pest services
Spiders				0				
Bats		~	2					

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):
See below
Healthy Schools Act This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)
 Training Every year school district employees who make pesticide applications receive the following training prior to pesticide use: ✓ Pesticide specific safety training (Title 3 California Code of Regulations 6724) ✓ School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).
Submittal of pesticide use reports Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt¹ from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm . (Education Code Section 16711)
Notification This school district has made this IPM plan publicly available by the following methods (check at least one): This IPM plan can be found online at the following web address: https://www.slocoe.org/divisions/operational-service operational-services-resources/ This IPM plan is sent out to all parents, guardians and staff annually.
Review

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct. Date: 10/10/23

Nelson Payton

10/10/24

and correct.

Date of next review:

This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true

¹ These pesticides are exempt from all Hearny Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)

Annual Notification Form

Dear Parent or Guardian,

The Healthy Schools Act requires all California school districts to notify parents and guardians of pesticides they expect to apply during the year. We expect to use the following pesticides in your school this year:

Name of Pesticide (Common Name)	Active Ingredient(s)		
WeedBeater Ultra	MCA, 2-ethylhexyl ester 31.55% Mecoprop-p acid 6.16% Diacamba acid 1.65% Carfentrazine-ethyl 0.2		
Roundup Pro	Glyphosate		
Insecticide/Miticide	Neem Oil		
	•		

You can find more information regarding these pesticides and pesticide use reduction at the Department of Pesticide Regulation's Web site at www.cdpr.ca.gov.

You may view a copy of the district's integrated pest management plan in the schoolsite office. It is located online at:

https://www.slocoe.org/divisions/operational-services/operational-services-resources/

If you have any questions, please contact:

Nelson Payton at npayton@slocoe.org or (805)782-7253

Dear Parent or Guardian,

The Healthy Schools Act of 2000 requires that all schools provide parents or guardians of students with annual written notification of expected pesticide use on school sites. The notification will identify the active ingredient or ingredients in each pesticide product and will include the Internet address (http://www.cdpr.ca.gov) for further information on pesticides and their alternatives.

Parents or guardians may request prior notification of individual pesticide applications at the school site. People listed on this registry will be notified at least 72 hours before pesticides are applied. If you would like to be notified every time we apply a pesticide, please complete and return the form below and mail it to:

If you have any questions, please contact Nelson Payton

Sincerely,

Nelson Payton

Request for Individual Pesticide Application Notification

I understand that, upon request, the school district is required to supply information about individual pesticide applications at least 72 hours before application. I would like to be notified before each pesticide application at this school.

I would prefer to be contacted by (chec	k one): U.S. Mail _ E	-mail Phone
